HCPPro's elearning libraries offer dozens of cost-effective training opportunities for your staff.

CORPORATE COMPLIANCE AND HIPAA TRAINING:

- » Every member of the staff, from Clinicians and Front Office to HIM and Nutrition Services
- » Emphasizes sound privacy and security practices
- » Covers false claims and the anti-kickback statute
- » Realistic scenarios teach the right way to respond

Visit www.compliance-education.com for details on the 12 courses in this library.

CODING AND REIMBURSEMENT TRAINING TO:

- » Refresh coders' skills
- » Improve coding consistency
- » Develop proficiency for certification
- » Master new or specialty topics
- » Earn continuing education credits

Visit www.codereducation.com for details on the 53 courses in this library.

Why HCPPro?

It's target-based:

It's the right way to train—that's why the OIG recommends it.

It's built on experience:

Hundreds of thousands of healthcare professionals have trained using HCPPro's compliance and HIPAA products.

It can be customized:

These courses are designed with your customization needs in mind so you can educate staff on your organization's policies and guidelines.

It's portable:

Use it on your learning management system or track and manage your learners on our system.

It's blended learning:

Use the elearning library in conjunction with HCPPro's award-winning videos, handbooks, and audioconferences for a comprehensive training program.
